TO
HIS EXCELLENCY
THE RIGHT HONORABLE JAMES BRUCE,
EARL OF ELGIN AND KINCARDINE,
GOVERNOR-GENERAL
OF
BRITISH NORTH AMERICA,
THE
Family Christian Almanac
IS MOST RESPECTFULLY DEDICATED.
BY HIS OBEDIENT AND HUMBLE SERVANT,
R. D. WADSWORTH.

P R E F A C E .

MONTREAL, 15TH OCTOBER, 1846.

TO THE CHRISTIAN PUBLIC.

The Subscriber begs leave to introduce to the Christian Public of Montreal in particular, and of Canada generally, the FAMILY CHRISTIAN ALMANAC, as a candidate for their favor and patronage.

No effort has been spared to render the work useful, interesting, and edifying; and it is fondly hoped, that the real and marked difference in its character, from that of other almanacs, will render its annual appearance an object of interest to the religious community.

I have the honor to be,

Your Obedient Servant,

R. D. WADSWORTH.

ECLIPSES IN THE YEAR 1847.

There will be two Eclipses of the Sun, and two of the Moon this year.

I. There will be an Eclipse of the Moon at the time of her full on Wednesday, March 31st, in the afternoon, invisible in America. Visible in the eastern hemisphere. Magnitude, 3.43 digits on the Moon's northern limb.

II. There will be an Eclipse of the Sun on Thursday, April 15th, at the time of New Moon in the Morning, invisible in America. Its chief visibility will be in the Indian Ocean, adjacent regions of the Southern Ocean, extending to 80° of south latitude. It will be central and total on the meridian in long. 89 deg. 58 min. east from Greenwich, and lat. 21 deg. 30 min. south. This point is nearly opposite to the centre of the Gulf of Mexico.

III. There will be an Eclipse of the Moon on Friday, September 24th, at the time of Full Moon in the morning, invisible east of the Rocky Mountains in America. The beginning may be seen at California and in the Oregon Territory; and at Atasha, as likewise in Asia, the whole Eclipse will be visible. Magnitude 5.04 digits on the Moon's southern limb. Duration, 2 hours, 13 minutes.

IV. There will be an Eclipse of the Sun on Saturday, the 9th October, at the time of New Moon in the morning, invisible in America excepting the north eastern coast of Greenland, where the end may be seen shortly after the rising of the Sun.

WEATHER TABLE.

The following TABLES, ascribed to Dr. Herschell, and revised by Dr. Adam Clarke, is a rational guide to the foreknowledge of the weather, founded on a scientific estimate of the attraction (and its effects) of the sun and moon for the earth.

New and full Moon.	Summer.	Winter.
If it be new or full Moon, or the Moon entering into the first or last quarter at 12 noon; or between 12 and 2.....	Very rainy	Snow and rain.
2 and 4 afternoon	Changeable.....	Fair and mild.
4 and 6 evening .	Fair.....	Fair.
6 and 8.....	{ Fair, if wind at N. W. Rainy, if wind at S. or S. W.	{ Fair and frosty, if wind at N. or N. E. Rain or snow, if S. or S. W.
8 and 10.....	Ditto.....	Ditto
10 and 12 night ...	Fair	Fair and frosty.
12 and 2 morning.	Ditto	{ Hard frost, unless wind S. or S. W.
2 and 4.....	{ Cold, with frequent showers	Snow and Stormy.
4 and 6.....	Rain.....	Ditto
6 and 8.....	Wind and rain	Stormy weather.
8 and 10	Changeable.....	{ Cold rain, if wind be W.; snow, if E.
10 and 12 noon ...	Frequent showers... ..	Cold, with high wind.

Explanation.—1st. The nearer the time of the Moon's change, first quarter, full, and last quarter, is to midnight, the fairer will the weather be during the seven days following; the space for this calculation occupies from ten at night till two next morning.—2ndly. The nearer to mid-day, or noon, these phases of the Moon happen, the more foul or wet the weather may be expected during the next seven days: the space for this calculation occupies from ten in the forenoon till two in the afternoon. These observations refer principally to Summer, though they affect Spring and Autumn to a considerable extent.—3rdly. The Moon's change, first quarter, full, and last quarter, happening during six of the afternoon hours, i. e., from four till ten, may be followed by fair weather: but this is mostly dependent on the wind, as it is noted in the Table.

LORD BACON'S RULES FOR PROGNOSTICATING THE WEATHER.

1. If the new Moon does not appear till the fourth day, it prognosticates a troubled air for the whole month.

2. If the Moon, either at her first appearance or within a few days after, has her lower horn obscured and dusky, it denotes foul weather before the full; but if she be so discovered about the middle, storms are to be expected about the full; and if her upper horn be affected, about the wane.

3. When on her fourth day the Moon appears pure and spotless, her horns unblunted and neither flat nor quite erect, but between both, it promises fair weather for the greatest part of the month.

4. An erect Moon is generally threatening and unfavourable, but particularly denotes wind; though, if she appears with short and blunted horns, rain is rather to be expected.

Thy shoes shall be iron and brass; and as thy days, so shall thy strength be. *Deut.* xxxiii. 25.

To thy saints, while here below,
With new years new mercies come;
But the happiest year they know
Is the last, which leads them home.

Let not thy heart envy sinners: but be thou in the fear of the Lord all the day long. *Prov.* xxiii. 17.

Wait on the Lord: be of good courage, and he shall strengthen thine heart. *Psalms* xxvii. 14.

O for a closer walk with God,
A calm and heavenly frame;
A light to shine upon the road
That leads me to the Lamb!

When thou saidst, Seek ye my face;
My heart said unto thee, Thy face,
Lord, will I seek. *Psalms* xxvii. 8.

FARM HOUSES.

There are few points of husbandry in which the effect of bad management and want of calculation, is so generally apparent among farmers, as in the position, arrangement, and construction of their dwelling houses. Comfort and utility is too often sacrificed to show, and beauty of design and neatness of execution overlooked, where they ought to be most apparent. There can be as much good taste shown in the selection of a position, and in the construction of a farm house, as in that of a palace, and there can be no good reason why it should not here be exercised.

In all thy ways acknowledge him,
and he shall direct thy paths. *Prov.*
iii. 6.

Each future scene to thee I leave,
Sufficient 'tis to know,
Thou canst from ev'ry evil save,
And ev'ry good bestow.

Trust in the Lord with all thine
heart; and lean not unto thine own
understanding. *Prov.* iii. 5.

He that shall endure unto the
end, the same shall be saved. *Matt.*
xxiv. 13.

Saints by the pow'r of God are kept
Till his salvation come:
We walk by faith, as strangers here,
Till Christ shall call us home.

Watch therefore: for ye know not
what hour your Lord doth come.
Matt. xxiv. 42.

FRUIT TREES,

Surrounded by snow, especially if deep or in drifts, are very liable to be destroyed or injured or girdled by mice, and the danger is increased if they stand in or near grass land. The most efficient measure to prevent injury, which can be taken at this season, is to tread or beat the snow firmly about them, which prevents the access of these animals to the trunk of the tree as they do not approach them when they cannot do it under cover of the snow, and near the surface of the ground. Attention to the above simple direction may have the effect of preserving many valuable young trees from serious injury.

As the mountains are round about Jerusalem, so the Lord is round about his people from henceforth even for ever. *Psalms* cxxv. 2.

Firm as the earth thy gospel stands,
My Lord, my hope, my trust;
If I am found in Jesus' hands,
My soul can ne'er be lost.

Give us help from trouble: for vain is the help of man. *Psalms* lx 11.

I give unto them ("my sheep") eternal life; and they shall never perish, neither shall any man pluck them out of my hand. *John* x. 28.

His honour is engag'd to save
The meanest of his sheep:
All that his heavenly Father gave
His hands securely keep.

My sheep hear my voice, and I know them, and they follow me. *John* x. 27

GRAFTING.

During the present month procure and collect scions for grafting. In some instances, as when the trees from which they are to be taken are ready at hand, cutting them may be deferred till spring; but in most cases, the business should not be put off till then, as the multiplicity of other avocations prevent the attention to it which is requisite; for the greatest care should be taken to procure the best varieties, and the present season of leisure admits of this being done properly. After the scions are once procured, it is as easy to graft and raise good as bad varieties.

I will heal their backsliding, I will love them freely : for mine anger is turned away. *Hosea* xiv. 4.

How lost was my condition,
Till Jesus made me whole!
There is but one Physician
Can cure a sin-sick soul.

O Israel, return unto the Lord thy God; for thou hast fallen by thine iniquity. *Hosea* xiv. 1.

Sin shall not have dominion over you : for ye are not under the law, but under grace. *Rom.* vi. 14.

When the load of sin is felt,
And much forgiveness known;
Then the heart, of course, will melt,
Though hard before as stone.

Let not sin therefore reign in your mortal body, that ye should obey it in the lusts thereof. *Rom.* vi. 12.

A STITCH IN TIME.

Before spring opens, the farmer should attend to the performance of whatever can be done *now*, and which may prevent interruption in the busy season of the year. Wood should be drawn, cut and corded, rails split and drawn where needed, corn selected and shelled, and tools repaired. Where there will probably be a deficiency of tools, it may be now conveniently supplied; and in procuring new tools care should be always taken to get the *best*, even though they may cost a little more. Where a man can do one third more work by using a good tool, he will soon pay for the additional expense.

The Lord's portion is his people ;
Jacob is the lot of his inheritance.
Deut. xxxii. 9.

The Lord my portion is,
I shall be well supplied ;
Since he is mine, and I am his,
What can I want beside.

Save thy people, and bless thine inheritance :
feed them also, and lift them up for ever. *Psalms xxviii. 9.*

Acquaint now thyself with him,
and be at peace : thereby good shall
come unto thee. *Job xxii. 21.*

Blind unbelief is sure to err,
And scan his work in vain ;
God is his own interpreter,
And he will make it plain.

That which I see not teach thou me :
if I have done iniquity, I will do no
more. *Job xxxiv. 32.*

QUERIES ANSWERED.

"Is it not better to keep stock at the barn late in the spring, rather than permit them to feed down meadow land?"

Certainly. Farmers err much in allowing their cattle to run over their meadow lands or pastures before the ground is settled or the grass started. Animals should be fed at the barn till there is a pretty fair bite of grass

"Upon what soil do potatoes do best?"

Upon those that are moist, rather than dry, and abounding in vegetable matter or mold.

Then shall we know, if we follow
on to know the Lord. *Hosea vi. 3.*

I need the influence of thy grace
To speed me in my way,
Lest I should loiter in my race,
Or turn my feet astray.

And Jesus said unto him, no man,
having put his hand to the plough,
and looking back, is fit for the king-
dom of God. *Luke ix. 62.*

The Lord is very pitiful, and of
tender mercy. *James v. 11.*

Trials must and will befall;
But, with humble faith to see
Love inscribed upon them all—
This is happiness to me.

Take, my brethren, the prophets, who
have spoken in the name of the Lord,
for an example of suffering affliction,
and of patience. *James v. 10.*

APPLES FOR STOCK.

A practical farmer says, "Last year I butchered a hog sixteen months old, which weighed 500 lbs. For some weeks before bringing him to the tub, he ate nothing but boiled apples. Corn meal was offered him, but refused; the pork is of the best quality, and though the moon was not consulted in killing him, the meat "ne'er shrunk a bit i' the pot."

"If tectotalism prevails, we must cut down our orchards," is a common objection. Not so fast friends. Your apples are worth infinitely more as food for both man and beast, than for the purposes to which you now put them.

Blessed are those servants, whom the Lord when he cometh shall find watching. *Luke xii. 37.*

Watch—'tis your Lord's command,
And while we speak he 's near;
Mark the first signal of his hand,
And ready all appear.

Be ye therefore ready also: for the Son of man cometh at an hour when ye think not. *Luke xii. 40.*

All things, whatsoever ye shall ask in prayer believing, ye shall receive. *Mat. xxi. 22.*

Lord, I cannot let thee go,
Till a blessing thou bestow;
Do not turn away thy face,
Mine 's an urgent, pressing case.

In every thing give thanks: for this is the will of God in Christ Jesus concerning you. *1 Thess. v. 17, 18.*

FODDER.

Sow corn broadcast for fodder. Some experiments that have been made, seem to show that this would be one of the easiest methods of making winter fodder known; and it would certainly be a kind of food highly relished, and very nutritious to all animals. The trial made, indicated that from eight to ten tons of food could be grown on an acre. From two and a half to three bushels of corn may be sown per acre; but there can be little hope of success, unless the soil is clean and rich.

Let not your heart be troubled :
ye believe in God, believe also in me.
John xiv. 1.

Jesus, hear our humble pray'r;
Tender shepherd of thy sheep,
Let thy merc and thy care
All our souls in safety keep.

The Lord of hosts is with us; the
God of Jacob is our refuge. *Psalms*
xlvii. 11.

The needy shall not be forgotten :
the expectation of the poor shall not
perish for ever. *Psalms* ix. 18.

A certain refuge Christ will prove
For all the poor opprest;
To save the people of his love,
And give the weary rest.

This poor man cried, and the Lord
heard him, and saved him out of all
his troubles. *Psalms* xxxiv. 6.

DRAINING.

Underdraining should be performed during the dry season, and those farmers who have wet spots of ground in cultivated fields should no longer delay the simple mode of rendering such land productive. Open drains should never be made but to carry off surface water. No drain for any other purpose should be much less than three feet deep, but an open one this depth must be nine feet wide to prevent the banks sliding, and this is an enormous waste of land. But a covered drain occupies no ground. The expense of digging, from this cause is also much greater in case of open drains.

Delight thyself also in the Lord; and he shall give thee the desires of thine heart. Commit thy way unto the Lord. *Psalm xxxvii.* 4, 5.

O Lord, I would delight in thee
And on thy care depend;
To thee in every trouble flee,
My best, my only Friend.

So run, that ye may obtain. *1 Cor.* ix. 24.

We know that all things work together for good to them that love God, to them who are the called according to his purpose. *Rom.* viii. 28

My Saviour, I would freely yield,
What most I prize, to thee;
Who never hast a good withheld,
Or wilt withhold from me.

All are yours; and ye are Christ's, *1 Cor.* iii. 22, 23.

GARDEN.

Early cabbages and cauliflowers for the next season, may be sown, to be protected by a frame and sash in the winter,—strawberries may be transplanted,—top onions set out,—hardy lettuces sown for spring use, to be covered during winter,—celery earthed up as its growth advances;—and the seeds of the pie plant put in the ground; but as these do not always vegetate freely, they should be planted in rich moist ground, which should be closely packed about them, and watered if necessary. This plant greatly improves the flavor of pies made from dried apples in spring.

Thy people shall be willing in the day of thy power. *Psalms* cx. 3.

“Come to me,” the Saviour cries;
 “Lord, I come,” my heart replies;
 “Speak the word, and it is done,
 Draw me, Lord, and I shall run.”

No man can come to me, except the Father which hath sent me draw him; and I will raise him up at the last day. *John* vi. 44.

If ye keep my commandments, ye shall abide in my love. *John* xv. 10.

Do not I love thee, O my Lord?
 Behold my heart and see;
 And turn each cursed idol out
 That dares to rival thee.

Ye have not chosen me, but I have chosen you, and ordained you, that ye should go and bring forth fruit. *John* xv. 16.

SECURE YOUR CROPS.

Root crops especially, should be placed beyond the danger of injury; it is better to take some additional pains than to lose one half the amount by carelessness.

Potatoes should be packed away in such a manner that they may keep well, even if the winter should be much severer than common. Their preservation depends on securing them from *frost* and from *moisture*. Hence these requisites should be particularly observed, both in placing them in cellars, and in heaps in the open field.

To the Lord our God belong mercies and forgiveness, though we have rebelled against him. *Dan. ix. 9.*

Jesus, thou art all compassion,
Pure, unbounded love thou art:
Visit us with thy salvation,
Enter every trembling heart.

O Lord, to us be length of confusion of face, because we have sinned against thee. *Dan. ix. 8.*

Israel shall be saved in the Lord with an everlasting salvation. *Isaiah xlv. 17.*

A debtor to mercy alone,
Of covenant mercy I sing,
Nor fear, with thy righteousness on,
My person and offering to bring.

Ye shall not be ashamed nor confounded world without end. *Isaiah xlv. 17.*

PRESERVE YOUR STRAW.

Previous to thrashing, I go to a hay stack and twist a quantity of bands, from 6 to 10 feet long, which are placed at the barn door, and when the straw is raked to the door, two men take a band and stretch it over the bundle of straw, then run each a hand under it, and turn it over endwise, when one of them fastens the band, and the other prepares another band. In that manner two men will bind as fast as the swiftest machine will thrash, and the straw is stacked as securely as wheat, and in one-fourth of the time required, when not bound. When wanted, it may be afterwards removed with far less labor than when stacked without binding.

Thou wilt revive me. *Psalm*
cxxxviii. 7.

Though troubles assail
And dangers affright,
Though friends should all fail,
And foes all unite;
Yet one thing secures us
Whatever be tide,
The Scripture assures us
The Lord will provide.

Behold, God is mine helper. *Psalm*
lv. 4.

Surely I come quickly. *Rev.*
xxii. 20.

Lo, he beckons from on high,
Fearless to his presence fly;
Thine the merit of his blood,
Thine the righteousness of God:
Angels, joyful to attend,
Hov'ring round thy pillow bend,
Wait to catch the signal giv'n,
And escort thee quick to heav'n.

Amen. Even so, come, Lord Jesus.
Rev. xxii. 20.

TRUE ECONOMY.

Do not undertake to winter more cattle than you have abundant means of providing for.—Let every farmer aim to have, next spring, instead of thin, bony, shaggy, shaggy cattle, fine, smooth, round, and healthy ones; and to this end let them spare no pains; and, first, let the cattle be well fed: secondly, let them be fed regularly: thirdly, let them be properly sheltered from the peering storm.—Proper food and regularity of feeding will save the loss on the animal's back, and shelter will save the fodder.

Government surveys are performed astronomically, and without reference to the magnetic meridian;—the variation of the needle being at the same time ascertained.

By the ancient ordinance of 1676, it is regulated that the lateral lines of all the Seigniories on the St. Lawrence shall run astronomically due North-West and South-East. And by another ordinance of 1722, all concessions on the Lake of Two Mountains, and on the Grand or Ottawa River, shall run, "Sud quart de Sud Ouest," and "Nord quart de Nord Est," or S. $11\frac{1}{4}$ deg. W. and N. $11\frac{1}{4}$ deg. E.

UNITED KINGDOM.—The Mails for England are forwarded by steam-packets, which leave Boston on the 1st and 16th of every month, except January, February, March, and April, when only one mail, that of the 1st, is despatched.—The packets leave Liverpool on the 4th and 19th of each month except December, January, February, and March. In these months, on the 4th only.—The mails in Montreal are usually made up three days before the time of the packets leaving Boston; but the variable state of the roads and of the facilities for conveyance often render it necessary to leave Montreal earlier. Public notice of the precise time of departure is given in some of the Newspapers, and may always be seen at the Post Office.*

NEWSPAPERS.

Colonial Newspapers, not exceeding two ounces, sent by post to any other place within the British North American Provinces, pay one halfpenny; to be pre-paid or not, at the option of the sender.

If sent to any British Colony beyond sea, (not intended to pass through the United Kingdom,) or to any foreign country, except the United States—one half-penny—to be pre-paid.

Colonial Newspapers sent to the United Kingdom, or to any British Colony by way of England, and British Newspapers from the United Kingdom to any part of Canada—one half-penny—*charged on delivery.*

If sent to any part of the United States, one penny.—To be pre-paid.

Newspapers sent from the United States, are liable, on delivery, to a Provincial rate of one penny, in addition to the United States postage.

British and Colonial Newspapers may be sent *by Packet* between any of Her Majesty's Colonies, without passing through the United Kingdom—free of postage for sea conveyance, and *by private Ship* at a Sea-rate of one penny each, to be pre-paid.

British Newspapers may be posted in Canada for any place in B. N. America, at a charge of one halfpenny each, to be pre-paid or not, at the option of the sender.

United States papers, if re-posted in this Province, are liable to full letter postage.

Newspapers may be sent from Canada by Mail Packet, and through England to any Foreign Port in China, the East Indies or East Africa, on the pre-payment of 2½d. Sterling, (or 3d. *Cur-rency*) each.

Newspapers, (with exception of British, which are not limited as to weight,) to pass under the foregoing regulations, must not exceed two ounces, otherwise they become liable to pamphlet postage, viz., one penny per ounce.

Supplements charged as distinct newspapers.

* Arrangements are being made for a more frequent conveyance of the mail.

PRICES CURRENT AND COMMERCIAL LISTS.

British or Colonial Prices Current or Commercial Lists may be sent by Mail Packet between Canada and any other of Her Majesty's Colonies—if passing through the United Kingdom, at a postage of 3½d. Currency—and if not passing via England, at a Postage of 2½d. Currency each: the pre-payment of these postages will be optional.

Prices Current and Commercial Lists, whether British, Colonial or Foreign, may be sent by Mail Packet* from Canada to any Foreign Port at a postage of 3½d. Currency each, to be prepaid.

The Prices Current and Commercial Lists above described must contain simply the names and prices of articles, excluding the names and addresses of the parties interested or dealing in the same—and no Newspaper, Price Current or Commercial List can be conveyed under these regulations unless the same shall be sent without a cover, or in a cover open at both sides, and unless there be no writing or mark upon it or upon the cover of it except the name and address of the person to whom sent,—nor any paper or thing enclosed in or with the same.

VOTES AND PROCEEDINGS IN PARLIAMENT.

If sent to the United Kingdom by packet, or to any part of British North America or British West Indies, one penny for every four ounces.

If intended to be sent to the United Kingdom by private ship, double the above rate.

No packet or cover containing votes or Legislative proceedings permitted to be sent through the Post, if exceeding six pounds weight.

PAMPHLETS AND OTHER PUBLICATIONS.

If printed in the United Kingdom, British North America, or British West Indies, may be sent to any place in British North America, the United States, or British West Indies, at the reduced inland rate of one penny per ounce in addition to sea postage; provided they do not exceed sixteen ounces.

If printed and mailed in the United States, they are liable on delivery in this Province to the same rate of one penny per ounce; but if re-posted in Canada, they are charged with full letter postage.

Newspapers, Pamphlets, Publications, and Parliamentary Proceedings, must be sent without covers, or with covers open at the ends. If this is not done, or if there be any marks or writing on them besides the address, full letter postage will be charged.

* By 'Mail Packet' is to be understood the Canada mails despatched from Montreal for the Mail steamers sailing from Boston.

* The question of right to this office, between Messrs. Ferrier and Mills, is not yet decided by the Court of Queen's Bench.

† By recent Act of the Provincial Legislature, the City is divided into nine Wards, called respectively—East Ward, Centre Ward, West Ward, St. Ann's Ward, St. Antoine Ward, St. Lawrence Ward, St. Louis Ward, St. James Ward, and St. Mary's Ward. The same law provides that the elections shall hereafter take place on the first Monday of March in every year, and the several Wards are to be represented in the Council as follows:—East, Centre, and West Wards, by three Councillors each, and the St. Anne's, St. Antoine, St. Lawrence, St. Louis, and St. James Wards, by two Councillors each. The qualification for voters are, owning or occupying a dwelling house of the value of £8 rental, and residence of one year in the city previous to 1st January before election; and of three months within the Ward, and to have paid all Assessments due up to the 1st January previous. Three Assessors for each Ward will be elected,—two being chosen as heretofore, and one appointed by the Council.

* The Provincial Duty on all goods marked (*) in the Table is 5 per Cent. when imported by Sea.

EXEMPTIONS.

The following exemptions refer to the Provincial duty only:—

I.—Copies of the Holy Scriptures, printed in the United Kingdom.

II.—Donations of Books or Clothing, specially imported for the use of, or to be distributed gratuitously by any Charitable Society in the Province.

III.—Philosophical Apparatus, Instruments, Books, Maps, Statuary, Busts and Casts of Marble, Bronze, Alabaster or Plaster of Paris, Paintings, Drawings, Engravings, Etchings, Specimens of Sculptures, Cabinets of Coins, Medals, Gems, and all other collections of antiquities—provided the same be specially imported in good faith for the use of any society incorporated or established for philosophical or literary purposes, or for the encouragement of the fine arts, or for the use or by the order of any University, College, Academy, School or Seminary of learning within this Province.

IV.—Arms or clothing which any contractor or contractors, commissary or commissaries, shall import or bring into the Province, for the use of Her Majesty's Army or Navy, or for the use of the Indian nations in this Province: Provided the duty otherwise payable would be defrayed or borne by the Treasury of the United Kingdom or of this Province.

V.—Specimens in Natural History, Mineralogy, and Botany.

VI.—Seeds of all kinds, farming utensils and implements of husbandry, animals for the improvement of stock—when specially imported in good faith by any Society, incorporated or established for the encouragement of Agriculture.

REMARKS.

I.—The specific Duties are levied according to the Imperial Weights and Measures, and in Sterling money.—20s. stg.—24s. 4d. cy. or \$4 87. The Imperial Quarter of Grain is equal to $8\frac{1}{4}$ of our Winchester Bushel.

II.—In calculating the ad valorem Duties under the Imperial Act, *one-tenth* is first added to the amount of the invoice.

III.—When the Tares cannot be ascertained from the invoice, the following are allowed:—On Coffee, in bags, 3 per cent.; Coffee in casks, 12 per cent.; Raw Sugar and Molasses, 12 per cent.; Leaf Sugar in casks or boxes, 15 per cent.; Leaf Tobacco in casks, 12 per cent.

IV.—Bonds, satisfactory to the Collector, will be taken for the Provincial Duties (except the Provincial Duties on Live Stock, Grain, Meal, Provisions, and other agricultural produce,) when the same shall exceed £50 currency, at 6 months; but, all dated from 1st September till 1st April, are due on the 1st April. All other duties are payable in cash.

V.—Goods imported, whether by sea or inland, may be entered for warehousing, and exported from the warehouse without payment of duty. American products may descend the St. Law.

rence in Bond, and be exported into the United States by way of Laprairie and St. Johns.

UNITED STATES DRAWBACK BILL. I insert the two clauses of this Bill which bear upon the trade with this Province,

Sec. 7. And be it further enacted, That any imported merchandise which has been entered, and the duties paid or secured according to law, for drawback, may be exported to the British North American Provinces adjoining the United States; and the ports of Plattsburgh, in the district of Champlain; Burlington, in the district of Vermont; Sackett's Harbor, Oswego and Ogdensburg, in the district of Oswegatchie; Rochester, in the district of Genesee; Buffalo and Erie, in the district of Presquisle; Cleveland, in the district of Cuyahoga; Sandusky and Detroit, together with such ports on the sea board, from which merchandise may now be exported for the benefit of drawback, are hereby declared ports from whence foreign goods, wares and merchandise on which the import duty has been paid, or secured to be paid, may be exported to ports in the adjoining British Provinces, and to which ports foreign goods, wares and merchandise may be transported inland, or by water, from the port of original importation, under existing provisions of law, to be thence exported for benefit of drawback: Provided, that such other ports situated on the frontiers of the United States, adjoining the British North American Provinces, as may hereafter be found expedient, may have extended to them the like privileges, on the recommendation of the Secretary of the Treasury, and proclamation duly made by the President of the United States, specially designating the ports to which the aforesaid privileges are to be extended.

Sec. 8. And be it further enacted, That all laws now in force in relation to the allowance of drawback of duties on goods imported into the United States and exported therefrom, and in relation to the conditions and evidence on which such drawback is to be paid, shall be applicable to the drawback allowed by this act. And, in addition to existing provisions on the subject, to entitle exporters of goods to the drawback allowed by this act, they shall produce to the collector of the port, from which such goods, wares and merchandise were exported, the certificate, under seal of the collector or other chief revenue officer of the port to which the said goods, wares and merchandise were exported in the said adjoining Provinces; which certificate shall be endorsed upon a duplicate or certified copy of the manifest granted at the time of such exportation, and shall state that the same identical goods contained in the same manifest had been landed at such foreign port, and duly entered at the custom house there, and that the duties imposed by the laws in force at such port upon the said goods had been paid, or secured to be paid, in full; and the said exporters shall also produce the affidavit of the master of the vessel in which the said goods were exported, that the same identical goods specified in the manifest granted at the time of such exportation, had been carried to the port named in the clearance or

manifest, and had been landed and entered at the custom house, and that the duties imposed thereon at the said foreign port had been paid, or secured to be paid; and that the goods referred to in the certificate of the collector or chief revenue officer of such foreign port herein mentioned, were the same identical goods described in the manifest aforesaid, and in the said affidavit.

Sec. 10—Provides, that in paying the drawback, 2½ per cent. of the duties be retained.

CURRENCY OF CANADA.

The values assigned to the several coins by the Currency Act are not arbitrary, but are proportioned (except in the case of British silver) to the quantity of pure gold or silver in each. The £ currency was and is equal to 4 dollars *of account*; and a note for \$100 either in Upper or Lower Canada, is now, as it has always been, payable by £25 cy., in any coins equivalent by law to that sum. By the Currency Act the Provincial dollar of account is made equal in value to that of the United States.

The coins current by the Act are:—

British gold coins at the rate of £1 4s 4d cy. to £1 stg. American Eagles coined before 1st July 1834, at £2 13s 4d cy.—Do. coined between 1st July, 1834, and 1st January, 1841, at £2 10s,—and at the same rates for half Eagles, &c.

The above are a legal tender *by tale* if within 2 grains of full weight, deducting $\frac{1}{4}$ d cy. for each $\frac{1}{2}$ of a grain wanting.

British gold and American gold coined before 1834, at 94s 10d cy. per oz. troy,—

American gold coined between 1834 and 1841, at 93s cy. per oz. troy,—

Coined before Apr 26 1841.	}	Gold coin of France, at 98s 1d cy. per oz. troy.
		Do. of Laplata & Columbia, at 89s 5d “
		Do. of Portugal & Brazil, at 94s 6d “
		Sp. Mex. & Chilion Doubloons at 89s 7d “

—if offered respectively in sums of not less than £50 cy., at one time.

British silver as above stated.

The dollars of Spain, United States, Peru, Chili, Central America, States of South America and of Mexico, coined before 1841, at 5s 1d currency, and half dollars at 2s 6 $\frac{1}{2}$ d cy. Quarters at 1s 3d. Eights at 7 $\frac{1}{2}$ d and sixteenths at 3 $\frac{1}{2}$ d, if legal weight. The parts less than halves being a tender at the said rates *by tale* to the amount of £2 10s in one payment, until they have lost one twenty-fifth of their weight, and not afterwards.

French 5 franc silver pieces, coined before 26th April 1842, at 4s 8d each.

Gold and silver coins of the same nations of later dates, may be made current by proclamation to be issued as aforesaid.

Copper coins of the United Kingdom, (or any to be coined by Her Majesty of not less than five-sixths the weight of such coin) at their nominal rates.

The least legal weight of a Sovereign is, 5 dwts. 2 $\frac{1}{2}$ grs.—of an Eagle coined before 1834, 11 dwts. 6 grs.—after 1834, 10 dwts. 18 grs.—of a Dollar, 17 dwts. 4 grs.—of a 5 franc piece 16 dwts.

The £ *sterling*, in any act or contract made after the passing of the Currency Act, [proclaimed 26th April, 1842] is to be understood as equivalent to £1 4s 4d cy., but in any act or contract made before that time, the word *sterling* is to be construed according to the intention of the Legislature or of the parties.

CURRENCY TABLE.

£1 Sterling equal to £1 4s 4d Currency.

EQUIVALENT SUMS: IN STERLING, CURRENCY,—AND DOLLARS & CENT^s.

RULE.—To convert Sterling into Currency: To the given sum add 1.5th of itself and 1.12 of that 1.5th.

AVERAGE MORTALITY OF ALL MANKIND.

The population of the whole earth has been variously estimated between eight hundred and a thousand millions of souls.

If we fix upon an intermediate number, say 946,080,000, and assign 30 years for the continuance of each generation, we shall find that the "children of men" come into the world and go out of it at the following average:—

Every Moment.....	1
— Minute.....	60
— Hour.....	3,600
— Day, 24 hours.....	86,400
— Week, 7 days.....	604,800
— Month, 30 days.....	2,592,000
— Year, 365 days.....	31,536,000

CONCERT OF PRAYER.

Prayer is offered by Christians, in various places, in behalf of particular objects, in the closet, the family or the social meeting, *at the same season*. The time and subjects of Prayer are here specified, in the hope that many may be induced to join the concert. "If two of you shall agree on earth as touching anything that they shall ask, it shall be done for them of my Father which is in Heaven."—*Matt xviii, 19*.

That Prayer may become effectual, it must be presented in the name of Jesus, in faith and with importunity; and the requisite means must be used for the attainment of the object desired.

SCRIPTURE CHARACTERS, OR THE CHILD'S
PRAYER.

Daniel's wisdom may I know,	Dan i, 17, 20.
Stephen's faith and spirit too ;	Acts vi, 8, 10.
John's divine communion feel,	John xiii, 23.
Moses' meekness, Martha's zeal ; }	Numbers xii, 3.
May I, with unwearied Paul, }	Luke x, 38.
Win the day and conquer all ; }	2 Tim iv, 7.
Mary's love may I possess,	Luke x, 42.
Lydia's tender-heartedness,	Acts xvi, 14.
Peter's ardent spirit feel,	John xxi, 15, 17.
And, like him, to Christ appeal ; }	
Like young Timothy, may I }	2 Tim ii, 22.
Every sinful passion fly. }	
Job's long patience may I know,	James v, 11.
David's true devotion too ;	Psalms lv, 17.
Samuel's early habits wear,	1 Sam ii, 18, iii, 19.
Lazarus' happy portion share ;	Luke xvi, 22.
May Isaiah's hallowed fire }	
All my fervent heart inspire ; }	Isaiah vi, 6.
Mine be Jacob's wrestling prayer,	Gen xxxii, 24-28.
Jabez's honour, Joshua's care ; }	1 Chron iv, 9, 16.
Joseph's purity impart,	Josh xxiv, 22, 23.
Isaac's meditative heart ;	Gen xxxix, 9.
Abraham's friendship, how sublime !	Gen xxiv, 63.
Might I call that blessing mine.	James ii, 23.
But more than all, may I pursue	
The lovely pattern Jesus drew :	1 Pet ii, 21.
And in my life and conduct show	
How he conversed and lived below ;	
And imitate my suffering Lord,	
'Till all his image is restored.	

TEMPERANCE.

ANECDOTE.—“My dear husband,” said an amiable and witty wife to her truant lord, the morning after he returned home at a late hour, somewhat the worse for an evening’s dissipation, “do you think, really, that man and wife are both one, as is sometimes said?” “Certainty, my dear, how shall it be otherwise? But why ask that question?” “Because,” she replied, “if that be the fact, I am bound to express my regret, and ask your forgiveness for being imprudent last night. Pardon me this offence, and I promise you I will never get *drunk* again.” The rebuke was effectual.

Father Mathew says that “teetotalism signifies the renunciation of alcoholic drinks for life, or, as it is in the Irish pledge, *go bragh*—for ever;—an excellent definition.

RELATIVE DEGREES OF DRUNKENNESS.—The London Punch, in his usual caustic and sarcastic style observes, that if Prince Albert were drunk, he would be called elated; if Lord Tristram were, he would be called elevated; if Mr. Plum, the rich merchant, were drunk, he would be called inebriated; if a respectable tradesman were drunk, he would be called intoxicated; but if a workman be in liquor, it would be said that the nasty beast was as drunk as a hog.

On Friday, the 3rd of February, died Anne Parker, aged 109, the oldest inhabitant of Kent, England. During her whole life, she abstained from spirituous liquors, indulging only in tea.—*Public Papers*.

Deceased, on the 26th of June, 1838, at Bybrook, Jamaica, Mrs. Letitia Cox. She outlived the oldest inhabitants in this parish for many generations. By her account she was a grown up young woman at the time of the destruction of Port Royal by an earthquake. She declared that she never drank anything but water during the whole of her life. She must have been upwards of *one hundred and sixty* years old.

An old black woman, at Holland estate, died eighteen months ago, at *one hundred and forty* years old. She also declared she never drank anything but water.—*Jamaica Royal Gazette*.

A young gentleman at a temperance meeting, on being asked to sign the pledge, excused himself by saying, “I am not quite ready.” At the close of the meeting, he proposed to one of the young ladies present to see her home. “I am not quite ready,” was the laconic reply.

CHEWING TOBACCO.—An American editor says:—“Suppose a tobacco-chewer is addicted to that practice fifty years of his life, each day of that time he consumes two inches of the solid plug, which amounts to six thousand four hundred and seventy-five feet, making nearly a mile and a quarter in length of solid tobacco, half an inch thick and two inches broad.” He wants to know what a young beginner would think if he saw the whole amount stretched out before him, and was told that to chew it up would be one of the exercises of his life, and also that it would tax his income to the amount of two thousand and ninety-four dollars.

HOUSEWIFE'S CORNER.

Apple Juice to make a pleasant Summer Drink for Harvest.

—Boil the juice of apples immediately it is pressed out, until it becomes of the consistency of treacle, or rather thicker. It will keep for many years; and mixed with water, in summer-time, forms a pleasant drink for the harvest-field. If desired it can be flavoured with ginger, cloves, or any other spice.

Cider Apple sauce.—Boil down new sweet cider, till about as thick as molasses when cold, strain it through a sieve, then as soon as it boils, put in your apples, pared quartered and cored, and stew over a slow fire, till the fruit is perfectly tender.

Cooling Drinks.—Turn boiling water on preserves, roasted sour apples, or lemons sliced; or boil lemon juice in sugar and water.

Cream Soup.—Take a nice knuckle of veal, or two or three shanks; boil about four hours, with some pepper-corns, two onions, salt, a little mace, and a small bit of lean ham; strain it, and when cold remove all the fat and sediment; beat six yolks of eggs and mix them with a pint of good cream; then turn the boiling soup upon it by degrees, stirring it well, and add the best part of the gristles to it if liked. Always boil cream before putting it in sauce or soup.

Diet Bread.—Mix a pound of sifted flour with a pound of powdered sugar; stir into the mixture, very gradually, eight well-beaten eggs; season with essence of lemon, rose-water, or to the taste; and bake fifteen or twenty minutes.

Excellent Family Bread.—Take a peck of sifted flour, half a pint of family yeast or a gill of brewer's yeast; and wet up, with new milk of natural warmth, or with skim milk or water, milk-warm, adding a little shortening and a tea-spoonful of salt. Knead it faithfully. Be particular to leave the dough soft, if wheat; and stiff, if rye.

Family Cake.—Take rice and flour, of each six ounces, nine well-beaten eggs, half a pound of pounded and sifted lump sugar, and half an ounce of caraway seeds. Beat all well together one hour, then bake one hour in a quick oven. This is a very light cake, and is very suitable for young persons and delicate stomachs.

Fruit Pies in Variety.—In making pies from ripe summer fruit, raspberries, blackberries, damsons, cherries, &c., always take a deep plate, line it with paste, place in the middle an inverted tea-cup, and fill the plate with fruit. Brown sugar and spice to the taste. The cup thus placed, will receive the juice, which would otherwise escape at the edges of the pie. It will settle under the cup; which remove on cutting the pie.

Milk Yeast.—It is very nice for biscuit. Take half the milk wanted for your biscuit; place it where warm, adding a little flour and salt. When light, mix it with the rest of the milk, and use it directly for the biscuit. A pint of this yeast is sufficient for five or six loaves of bread. It makes sweeter bread than any other yeast, but it will not keep.

Pound Cake.—Rub one pound of sugar and three-quarters of butter to a cream; add the well-beaten yolks of ten eggs; then the whites; and stir in, gradually, a pound of sifted flour.

Sponge Cake.—Beat well together the yolks of ten eggs with a pound of powdered white sugar; and then stir in the whites, beaten to a stiff froth. Beat the whole ten or fifteen minutes; then stir in, gradually, half a pound of sifted flour. Spice it with a nutmeg or the grated rind of a lemon. Bake immediately.

For Dressing Asparagus Beds.—Put your refuse pork or beef brine upon them. While it adds to the growth of the asparagus, it destroys the weeds.

To make Tomato Ketchup, and to keep Tomatoes and Lima Beans through the Winter.—To one gallon of skinned tomatoes, put four spoonfuls of salt, four of black pepper, three of mustard, half a spoonful of allspice and eight pods of red pepper. All the ingredients should be made fine, and simmered slowly in a pewter basin, in sufficient sharp vinegar to have two quarts of ketchup after simmering it three or four hours and straining it through a wire sieve. Those who like it may add two spoonfuls of the juice of garlic, after the simmering is over, and the ingredients are somewhat cooled. This is superior to West India Ketchup, is an excellent remedy for dyspepsia, may be used in a week, but improves much by age. Smooth ripe tomatoes may be kept fresh through the winter, by packing in dry sand and keeping in a cool dry place. Pack Lima Beans in a cask, with alternate layers of fine salt; put a weight on them, cover and keep them where cool and dry. The later the pods are gathered the better.

To prevent the formation of a Crust in Tea Kettles.—Keep an oyster-shell in your tea kettle. By attracting the stony particles to itself, it will prevent the formation of a crust.

White Apple-sauce.—Pare and quarter tart apples; put to them enough water to prevent their burning, and boil till perfectly tender. Sweeten with sugar, and season with cinnamon, grated lemon, mace or nutmeg.

Liquid Blacking.—Mix and stir well together four ounces of ivory-black, six gills of vinegar, two spoonfuls of molasses, and one of sweet oil.

Whitewash that will not rub off.—Mix half a pint of lime and water ready to put on the wall; then take a gill of wheat flour, mix up well in a very little cold water; then pour boiling water over it till it thickens. Pour it into the whitewash while hot, and stir the whole together.

Lady's Dress.—Let your ear-rings be attention, encircled by the pearls of refinement; the diamond of your necklace be truth, and the chain Christianity; your bosom-pin modesty set with compassion; your bracelets be charity, ornamented with the pearl of gentleness; your finger-rings be affection, set round with the diamonds of industry; your girdle be simplicity, with the tassel of good humour; let your thicker garb be virtue, and your drapery politeness; let your shoes be wisdom, secured by the buckles of perseverance.

THE HUMAN RACE.—Supposing the whole Human Race to number 1,000,000,000, and the average space occupied by each individual to be $1\frac{1}{2}$ square feet, they would only occupy a square of 47,063 feet, or about $8\frac{3}{4}$ miles. If a thousand millions can be congregated on so small a surface, how many will stand upon the space of the whole earth at *The Last Great Day*?—Yet every eye in this vast multitude shall see the Judge upon the great white Throne—every knee shall bow before him—every tongue confess that Jesus Christ (although now despised and rejected of men) is Lord, to the glory of God the Father. Reader! “*prepare to meet thy God.*”

FEARFULLY AND WONDERFULLY MADE.—There are 3,528 perspiration pores in a square inch of the palm of the hand. Each pore is the aperture to a little tube $\frac{1}{4}$ of an inch long; consequently there are 822 inches, or $73\frac{1}{2}$ feet of these tubes in a square inch of the hand! The number of square inches of surface in a man of ordinary size is ascertained to be 2,500; the number of pores, therefore, is 7,000,000; the number of inches of perspiration tube, 1,750,000, that is 145,833 feet, or 46,800 yards or nearly 28 miles! Think of it, ye thoughtless! 28 miles exposed to morbid influence.
